The Wizard Triangle Polish Mop Gets Into the Most Difficult Places.

In every household there are corners and other hard-to-reach places that the average mop is useless in. Not so with the Wizard Triangle Polish Mop. It will clean anywhere, because of its scientific shape and its adjustable "human-elbow" handle, a strong feature of the new 1914 model.

Why the Wizard Polish Mop Is the Best to Buy and the Cheapest and Easiest to Use.

It is the original scientifically shaped mop—the triangle shape, that will thoroughly clean behind the doors, over doors, corners in the hallway or room, back of the plano, under beds and tables, under the radiator.

Has the adjustable handle like a human elbow that swings around to just the right angle for any cleaning requirement, whether it be on the ceiling, side-wall, floor, corner, door or window frame. It has a big spread, cleaning quickly—8x8x8 inches. Weighs only two pounds six ounces and is perfectly balanced. Retains all the dirt it gathers up until shaken out. Easily washed with soap and water.

We are now demonstrating this fine Mop, that no housewife should be without, in our Housefurnishing Department, fifth floor, F street. Price......\$1.50
This Mop may also be obtained in chemically treated form, es-

pecially adapted for use on wax floors; washed without injury You are invited to see the many other Wizard Cleaning Products that will be demonstrated for your benefit.

choosing one of these fine pieces we are now displaying.

Whether you want one of the very rich and elegant silky-like Kermanshahs or the less fine, but heavy and durable weaves your selection will be entirely satisfactory, and we guarantee every rug sold as an oriental to be a genuine oriental.

Now about the colorings and designs; perfect harmony or an agreeable contrast should be sought at all times, and we have some very handsome tones and patterns that any one interested in Oriental Rugs should see,
